INTEREST

Coding, Designing, Video Editing

OTHER SKILLS

- Strong problem-solving abilities.
- Adaptability to new technologies.
- Attention to detail and code quality.

CERTIFICATIONS

- Certification in Python from Sebiz Square, Mohali, Chandigarh.

OBJECTIVE

"Recent graduate with a strong foundation in HTML, CSS, JavaScript, and React, eager to apply frontend development skills to create innovative and user-friendly web applications. Seeking to contribute and grow in a dynamic team environment."

WORK EXPERIENCE

Indian oil corporation limited

JUNE 2023 - DECEMBER 2023

Network Support Engineer

- Configured and maintained network devices (routers) to ensure optimal performance and secure connectivity.
- Provided technical support and troubleshooting for network issues, minimizing downtime and ensuring efficient network operations.
- Utilized network monitoring tools (e.g., Abhilekh Portal) to identify and resolve performance bottlenecks and connectivity issues.

PROJECTS

PixalStrap Project

HTML & CSS (UI/UX)

- Developed a responsive, user-friendly website for a furniture brand using **HTML** and **CSS**, ensuring seamless access across various devices and screen sizes.
- Designed and implemented a visually appealing static website showcasing furniture products, utilizing **HTML** for structure and **CSS** for styling to create an engaging user experience.
- Created custom **CSS** animations and transitions for product displays, enhancing interactivity and visual appeal of the furniture content on the website.
- Website url: <https://monika1209.github.io/On-demand-last-mile-delivery/>

Hospital Website

Dynamic Website

- Developed a responsive hospital website using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**, ensuring smooth navigation and user-friendly design across devices.
- Integrated interactive features like appointment scheduling and patient forms using **jQuery** and **JavaScript**, enhancing functionality and improving user experience.
- Utilized various **CSS** libraries (e.g., **Animate.css**) and **jQuery** plugins (e.g., **wow.js**, **aos.js**) to create dynamic content such as hospital departments, services, some Faq's and interactive maps for hospital locations.
- website url: <https://monika1209.github.io/medical/>

EDUCATION

Bachelor of Science and Technology

BPSMV University, sonipat, Haryana

(Compter Science and engineering)

2018-2021

Government polytechnic college for women, faridabad

Civil Engineering

2015-2018

10th class (CBSE Board)

Rawal International School, Faridabad

2014-2015
